

Ref no: 18/2019

Date: 15/07/2019

TO WHOM IT MAY CONCERN

This is to certify that **Ms. Kshirabdi Taneya Singh Samant** has successfully completed the summer internship program. The duration of this project was from 17th April 2019 to 20th May 2019.

Taneya has extensively worked on 'Entomology' data which involved collection of photos and data from various sources and categorising them according to family, species, genus, common name, & location on excel sheet.

During the internship, Taneya was found to be very sincere and demonstrated good working skills with a self- motivated attitude to learn new things. She always completed the assigned tasks on time.

We would love to work with her again and wish her luck for her future endeavors.
