30-12-2018

TO WHOMSOEVER IT MAY CONCERN

This is to state that Shri Shahid Nawaz Landge, a student in the Department of Botany, St. Xavier's College Mumbai was involved in the process of documentation of plant diversity and ethnobotanical survey in three tribal villages. He was attached to the Kashtakari Sanghatna from 26th December to 30th December 2018 for the said purpose and undertook his field studies in the villages of Ashte, Raipur and Bendgaon in Dahanu taluka, Palghar district. During this period he interacted with the members of the Community Forest Resource Management Committees (CFRMCs) and other tribal residents in the villages. He documented the various flora and their uses and also collected samples and photos of the same. These will be utilized to create village-level herbariums and in the preparation of Peoples' Bio Diversity Registers. These will be of immense value to the local people in their efforts to protect and manage their forests.

We wish him the best in all his endeavours.
