There seems to be a mismatch in the data asked for and the metric.

The list requested in the DVV process is for **Institutional** scholarships whereas the metric 5.1.1 is for scholarships and freeships provided by the **Government**.

The list of students receiving government scholarships is attached along with the requested list of institutional scholarships with the relevant scholarships highlighted.

There are no sanction letters given to students. A list of all scholarship recipients (about 150) is displayed on student notice boards fifteen days before the awards ceremony and the scholarships are given to students on 31<sup>st</sup> July of every year.

College/institutional scholarships are awarded in the name of donors who have donated a corpus towards a scholarship. The interest accrued on the corpus is given to one student per year. The number of students receiving a specific scholarship per year is therefore rarely more than one. Thus 50 students do not receive the same scholarship in one year.
