Students' Feedback

On 'THE NEXT STEP'- An initiative by the Psychology Department

The Department of Psychology, St. Xavier's College, Mumbai (Autonomous) arranged a lecture series titled 'The Next Step' to address the concerns of the third year students of psychology and give them information about the different courses and avenues available to them as they graduate with either a major or a part-major in the subject. Professors, professionals, alumni and students of various Universities and from a diverse array of courses were invited to speak to the students about the curriculum, culture, climate and future prospects that each of these Master's programs would entail and provide. The students have put forward their opinion about the series through this report and below mentioned, briefly, are the positives and negatives of it.

Positives:

- The lecture series, on the whole, was well-organized.
- It was helpful as it provided information about courses not just in the city, but also across other cities in India and abroad.
- There was good coverage of the diverse opportunities available out there; ranging from Master's Program for Clinical and Counseling Psychology to Human Resource Management to Media and Communication.
- It encouraged us to consider conducting research in India by inviting professionals who were either currently pursuing their Ph.D. or had completed it.

Negatives:

- The lecture series could have been held early on in the year as certain Universities conduct the entrance tests towards December-January, and knowledge about these courses would have proven more helpful during the application process; and to make an informed choice.
- The perspective of quite a lot of these courses was restricted to the that of the respective professor, who tailored the information to the course details and curriculum only. On the other hand, a student's perspective (as in the case of the talk for Christ University) got across both the advantages and disadvantages of the course.
- The information on the avenues to reach a profession through different courses was insufficient, and something that could've been addressed more elaborately.

To sum it up, the students found the lecture series to be an enriching experience in not just providing information about the admission procedure or the fee structure but also exposing us to the different fields and opportunities. We would also request the Department to continue arranging it for the next year and in the years ahead, and hope that our feedback was constructive and could be incorporated in a revised version of this lecture-series in the years to come. Thank you.

Report of Career Guidance Seminar by Department of History

The Department of History of St. Xavier's College under the guidance of Prof Avkash Jadhav held a career guidance seminar on conventional and unconventional career opportunities in History on 23rd February 2018.

The speakers were Mr. Navin Jambhulkar (I.P.O.S) on preparation for the Civil services and other competitive examinations, Prof. Elvina Pereira of St. Xavier's Teacher's Training College on career options in academics, Mr. Chaitanya Marpakwar from Mumbai Mirror on career options in Journalism, Mr. Prasanna from Chatrapati Shivaji Maharaj Vastu Sangrahalaya (CSMVS) gave insights on careers in museology, Ms. Deepti Anand from the startup Past and Perfect on the career options in the documentation and archives, Ms. Vrunda Pathare from Godrej Archives on taking up archival science as a career option, Ms. Khushboo Shaikh from Max Mueller Institute of Foreign Languages and she spoke on career options in foreign languages.

The seminar covered the fields of upcoming trends of Archival Science, the process of primary data and documentation, business history, oral history, civil services, Museology, journalism, academics, careers in foreign languages, etc.

The objective of having such a seminar was to expose students to the new opportunities available with history as a subject; the students are also encouraged to take up internships during their vacation, so as to give them first-hand experience while they are still pursuing their studies. It has certainly added a practical approach to studying history.

I was equally happy to meet some of my old friends and also proud to see some of my students doing so well in their life and career. I wish them all great success.

Report of Career Guidance Seminar - Department of Microbiology

"Choose a job you love, and you will never have to work a day in your life"

Mumbai, April 21, 2018:

Every student faces the question of 'what next' after graduation and post-graduation studies. It is at this point that career guide steps in and helps the child sail through these turbulent times. Human capacities are infinite and can never be measured, nor can one judge what the other person can do. Every person has unique characteristics and has their own strengths and weaknesses. The key was to identify these unique qualities through career guidance.

Career building is a continuous process and everyone is worried about their career, especially in the initial stage. In this day and age where there are so many career options young students find it very difficult to choose the right career option and at times prefer the safer option to their personal interest. Taking all these issues into account a career guidance seminar was organized by the Microbiology department of St. Xavier's College, Mumbai for the graduates and post graduates in Microbiology and Biotechnology, who wish to step out and build a bright future. Three speakers were invited from different career backgrounds to speak on all important topics related to career choices and guide all the participants towards a stable and right career choice.

The seminar started with the first speaker: **Mr. Mahesh Jagtap** (alumnus of the college) who went back to his experiences of school and college days and shared his personal story about his career. He right now works in sales and marketing company. The company in which he is involved is **Pharma Quality Europe (PQE)**, widened worldwide. He gave a glimpse of all the possible career options available for a microbiologist and a biotechnologist not only in his company but also in others such as Bioprocess engineering, Patent lawyer, Brewery microbiologist, Biostatistician, Veterinary virologist, Genetic counselor, etc. He was a very confident and motivational speaker excelling in his field and encouraging students to take up different career opportunities.

The second speaker was **Mrs. Shilpa Verekar**, head of the MicroChem Silliker Pvt. Ltd., Located at Navi Mumbai. She has been awarded for woman of excellence. Her talk was basically about the various roles a microbiologist can play in Food industry. She explained various zones in a food industry which needs to be regulated. Welcome to **THE NEXT STEP** a symposium organized by the Psychology Department of St. Xavier's College, Autonomous, Mumbai, on Friday 22nd February 2019, from 1-4.30pm in the MMR.

The objective of this event is to give our current students a glimpse of the PG courses and potential career paths they can choose from after graduating with Psychology. The resource persons (many of whom are alumni of the department) from diverse fields, with varied experience, have been invited to throw light on the kind of course work, evaluate the course with respect to the pluses and minuses and share some personal insights from their journey towards a career path. Due to the range of areas we wish to touch upon, each of our speakers will get a maximum of 10 minutes (followed by 5 minutes of audience interaction).

'Further Education – India and Abroad – Statistics' by Tejas Mehta

On the 7th of May at 11am, the department of statistics arranged for an online alumni lecture for the students of first year BSC and BA statistics from St Xavier's College, along with some students from IY College.

Mr. Tejas Mehta, (Chairperson, Stats Society 2017-18) took the students through his journey of securing admission in LSE and University of Columbia before finally choosing the MA Economics course at the Delhi School of Economics.

The main objective of this interactive session was to give an idea about further studies in India and abroad, after graduation.

The online lecture took place via the zoom app, and it started with Tejas introducing himself to the students, after that he mentioned the two main parts of the session which were 1. Studying abroad 2. Studying in India. He started with explaining the studying process for entrance exams and emphasized on the importance of good grades. Furthermore he brought into light some facts about studying abroad, including the enormous amount of money required, and the vast variety of courses that are available. Tejas strongly suggested students to apply for scholarships, asked them to analyze the available courses thoroughly and make choices and to keep tracks of all news and updates.

Next, he suggested that students should not only take activities which enrich their Managerial skills, but also academics relates extra-curricular activities like editing, writing etc. Further the discussion was focused upon online courses and internships. Tejas asked students to undertake as many courses as possible, and to undertake mixed internships, which concern different jobs, so that the students would get better exposure. He shared some of his internship experience after which he explained the importance of good letters of recommendations, for which building a rapport with the teachers was essential.

The session then went on towards discussing about further education in India. Tejas pointed out that exams like IIT Jam, ISI and CAT, XAT etc were the most opted ones. Students wanting to pursue MBA were asked by him to study two years in advance. And he suggested students opting for Masters degrees to keep a good score and mentioned all top colleges and their entrance exams.

He finally pointed out the very common mistakes that students commit, and suggested suitable alternatives to avoid such mistakes. Then in the end, Tejas keenly answered all the doubts that students had and the interactive session ended around 12:15 pm.
