• **NitiSamvaad: Panel Discussion 'Environment and Development in the Urban Jungle'**

Organizing Department: Public Policy (PP)  
Participants: MPP students  
Date: 20<sup>th</sup> Jan. 2018

Description:

Contemporary discourse on the environment invariably pitches it against development, especially in the urban context. From Metro car sheds to coastal highways, the destruction of the environment is the cost we are apparently asked to pay for urbanisation. Thus, issues of ecology and conservation are seen as burdens on the ambitions of a "land-starved" city like Mumbai. Is it possible to subvert the binary of economic growth vs. environmental sustainability? Can urban development coexist with a sense of responsibility towards our natural resources?

Recent people's movements have shown us that environmental activism does not necessarily have to be "anti-development". However, for active citizenry to have an impact on city-building efforts, we need to break the barrier between people and the state. Mumbai's new development plan, while flawed, invited suggestions from the public. This type of a collective engagement is a start towards a more holistic, sustainable urban environment policy.

Thus, Niti-Samvaad 2018 deconstructs the binary between the environment and development, and between the public and government in an interactive panel discussion with environmental activists, academics, civic officials and city planners. Join us we combine our efforts to imagine an environmentally inclusive and developmentally sound Mumbai. Panelists are as follows:

1. Stalin Dayanand, Director, (Conservation), Vanashakti NGO
2. Pravin Darade, Additional Metropolitan Commissioner, MMRDA
3. Dr. Nandini Deshmukh, Retd. HoD, Department of Zoology, Kirti College
