7.1.6: QUALITY AUDITS ON ENVIRONMENT AND ENERGY

7.1.6.1: Institutional environmental and energy initiatives are confirmed through the following:

- ❖ Green Audit
- ❖ Energy Audit
- ❖ Environment Audit

❖ GREEN AUDIT

A comprehensive Internal Audit was carried out by members of the Xavier's **Environmental Committee (XEC)**. **This audit encompassed Waste Management audit**, Energy audit, Water Management audit and Botanical audit. The detailed report and its recommendations have been documented and submitted in Feb. 2020.

❖ ENERGY AUDIT

Electrical Safety Inspection was carried out by Prakash Electricals, Mumbai, and the report on electrical energy usage, issues, risks and related recommendations for improvement were provided by the agency. The inspection was carried out in two phases: Phase I (Oct. 2019) to inspect and propose the safety recommendations, and Phase II (Nov. 2019 to Mar. 2020) to fulfil urgent safety requirements on priority basis, and the fulfilment of non-urgent requirements is still in progress, delayed by the pandemic.

Electrical Inspection by Friends Electricals (Govt. licensed contractors) was conducted in April 2020 and the action taken has been documented by them in the Electrical Inspection report.

❖ ENVIRONMENT AUDIT

MoU was signed between the college and Centre for Environmental Research and Education (CERE), NGO working in the environment sector on 19th Mar. 2020 to carry out the environmental audit. However, due to the pandemic lockdown imposed immediately after, the environment audit is pending.
